

Raegan and RJ in Space

First to Mars!

Richard Collins

Raegan and RJ in Space First To Mars

'Raegan and RJ in Space' is the story of the first Christians to start their own space program. In 'First to Mars' Raegan, RJ and their friends go on an adventure to Mars!

Story and Concept by Richard Collins

Written by Christopher Retts and Cliff Drew

Illustrations by Jumping Frog Entertainment

Paul Siegel, Cliff Drew, Samuel Rosette

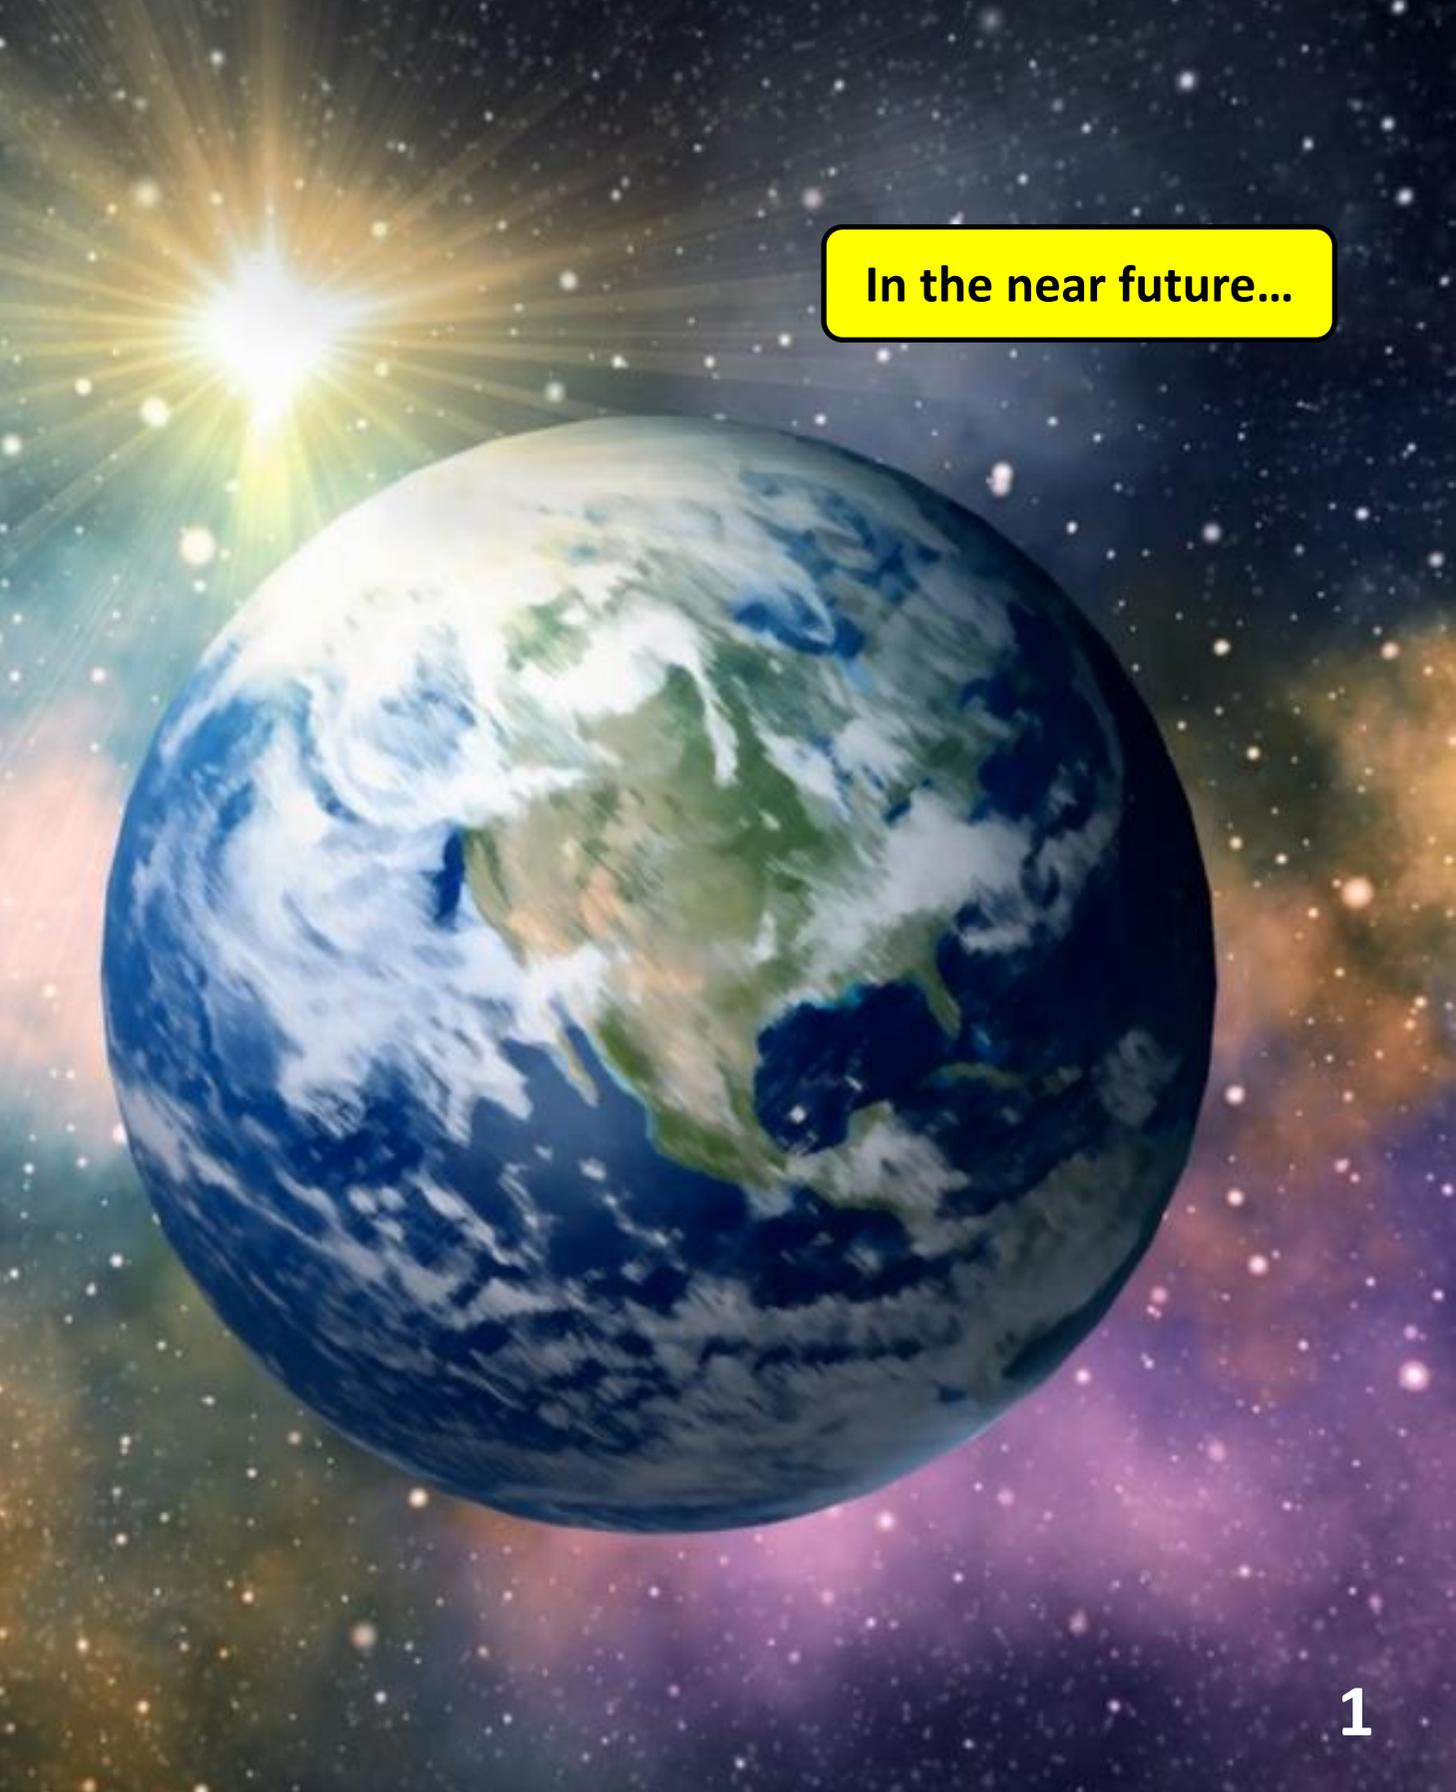

Matte Painters Greg Jaimes, Mark Zepeda

**3D Modeling and Textures Bruno Zarate, Oscar Hernandez,

In the near future...

**50 Christian families founded
the town of Hope, Tennessee!**

A futuristic cityscape with a prominent blue and white tower and a satellite dish in the foreground. The scene is set against a bright, hazy sky. The tower has a blue base and a white upper section. The foreground shows a dark, reflective surface with a grid pattern. A yellow speech bubble is overlaid on the scene.

**It was here that they built the first
star port and star ship on Earth!**

Inside the star port,
Ms. Sarah the science
officer is finishing up
the mission briefing!

Your training for the
Mars mission has
prepared you well.

Are there any
questions?

There are no questions.

Captain Rich is pleased with the preparations.

They are ready. Pastor Chris, please pray for the mission.

Dear God,
please protect
our crew.

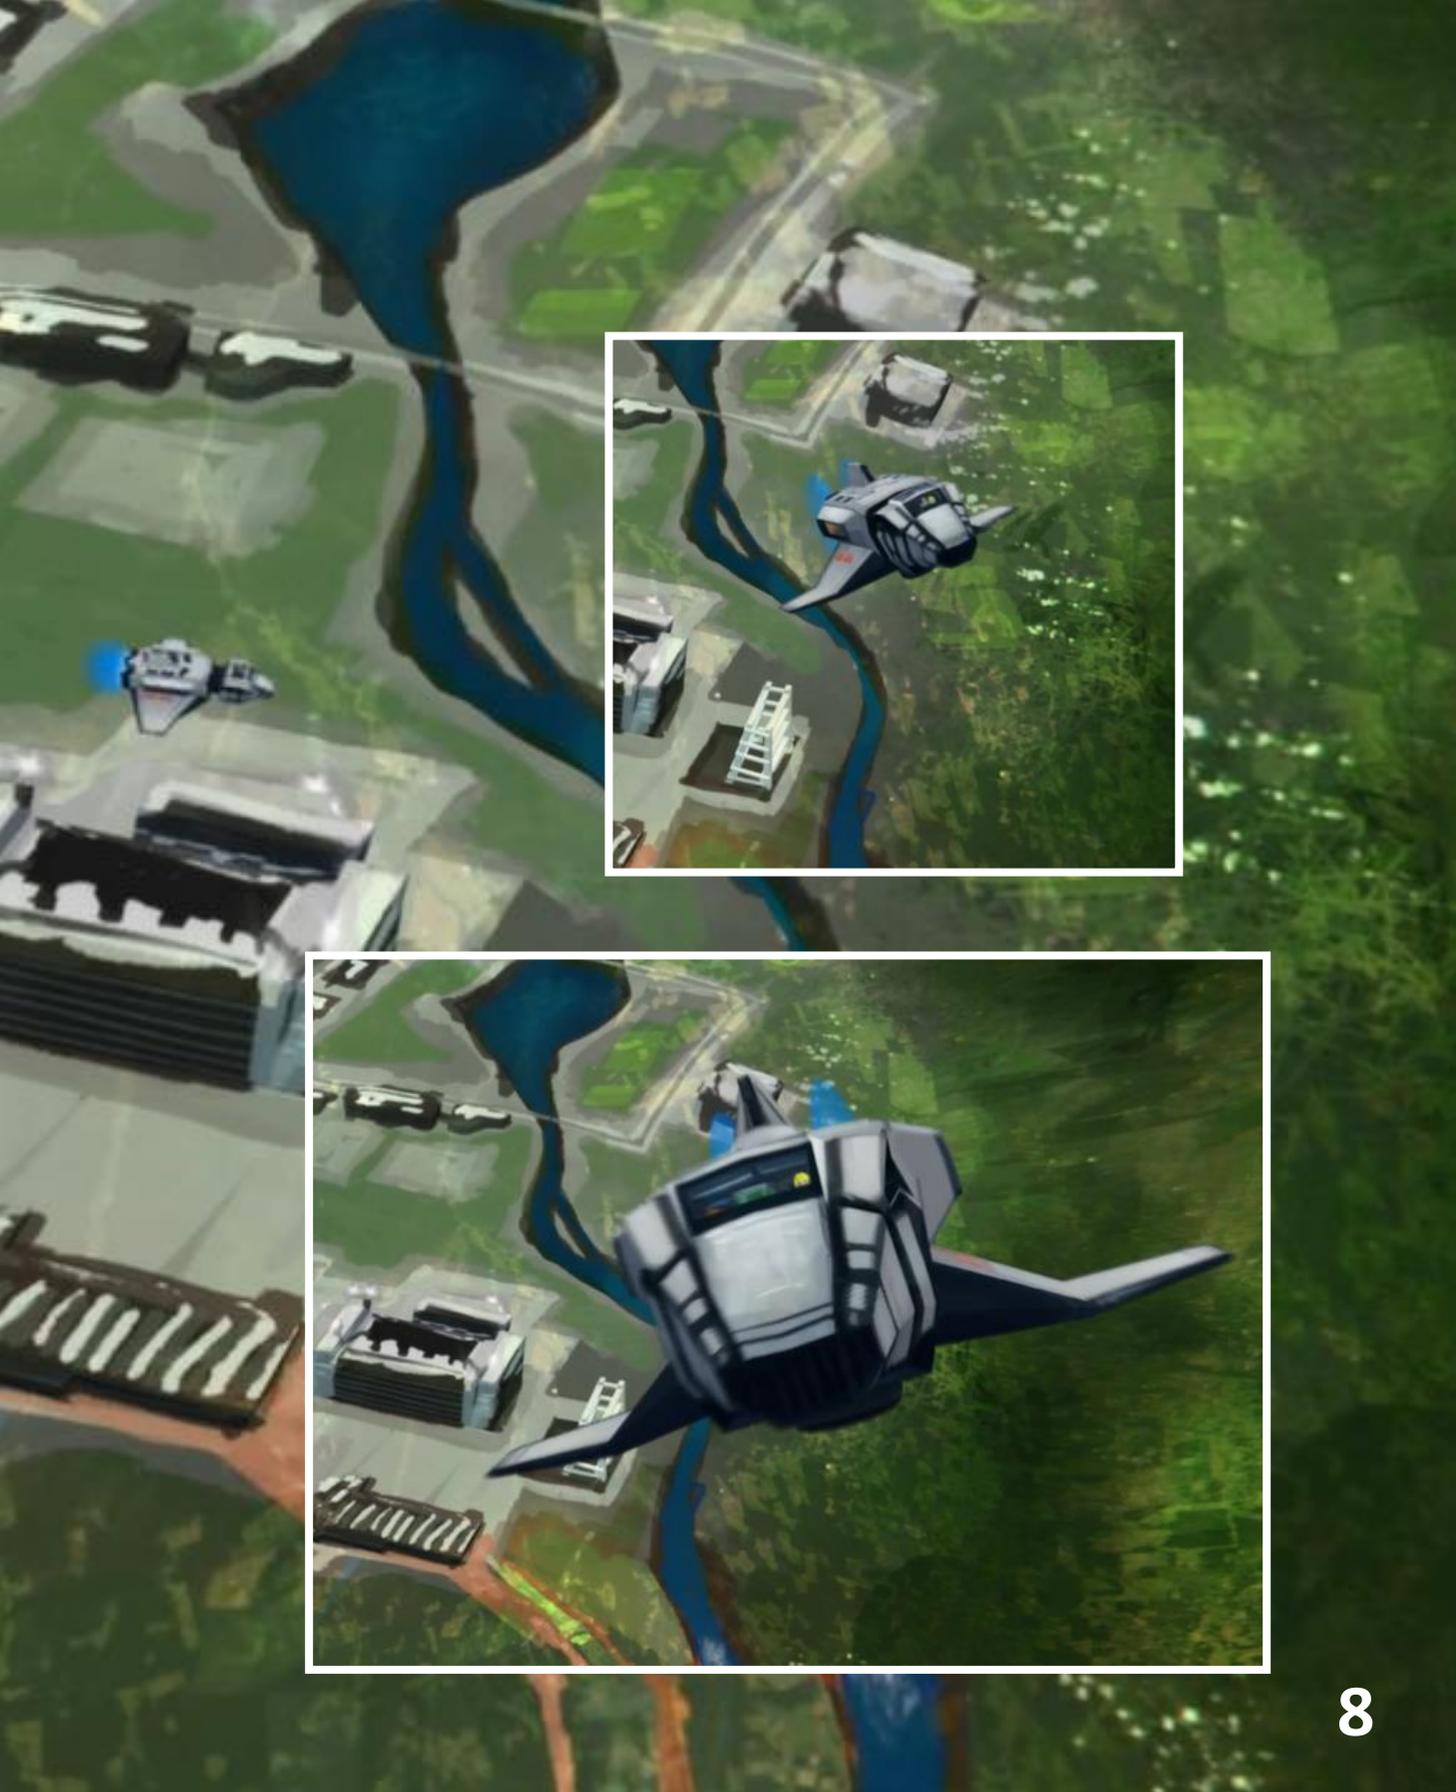

Help them to
accomplish their
mission! Amen!

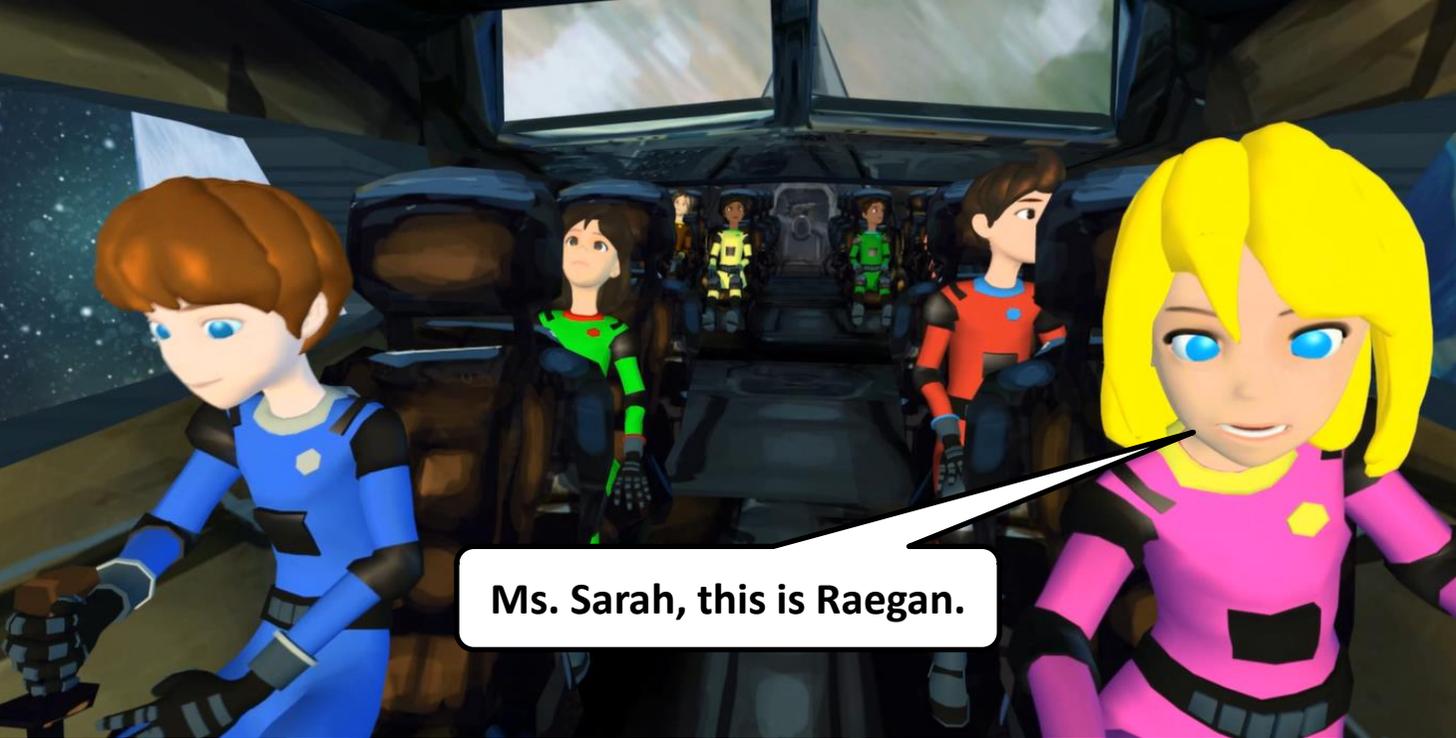

Ms. Sarah, this
is RJ. We are
taking off!

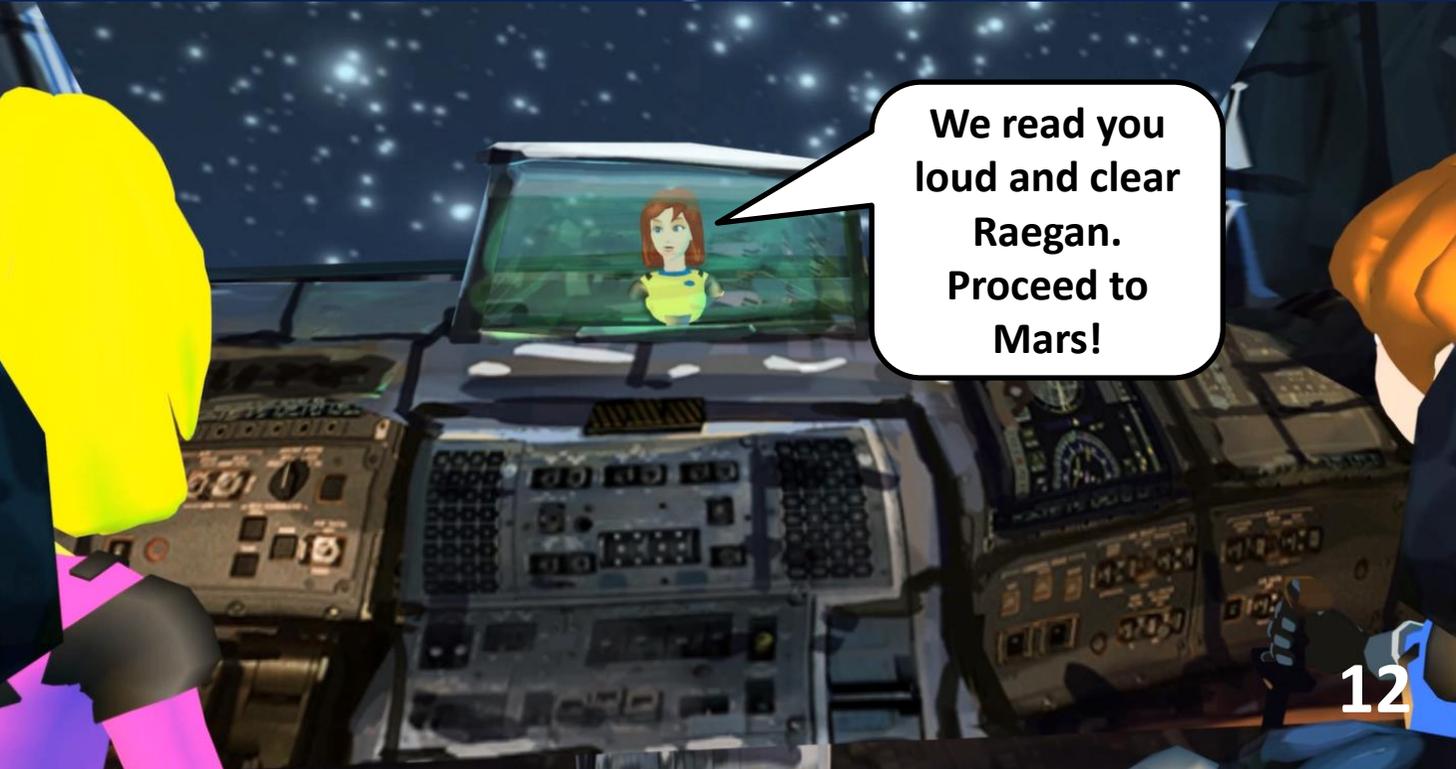

Ms. Sarah, this is Raegan.

We have entered orbit, and are on course for Mars!

We read you
loud and clear
Raegan.
Proceed to
Mars!

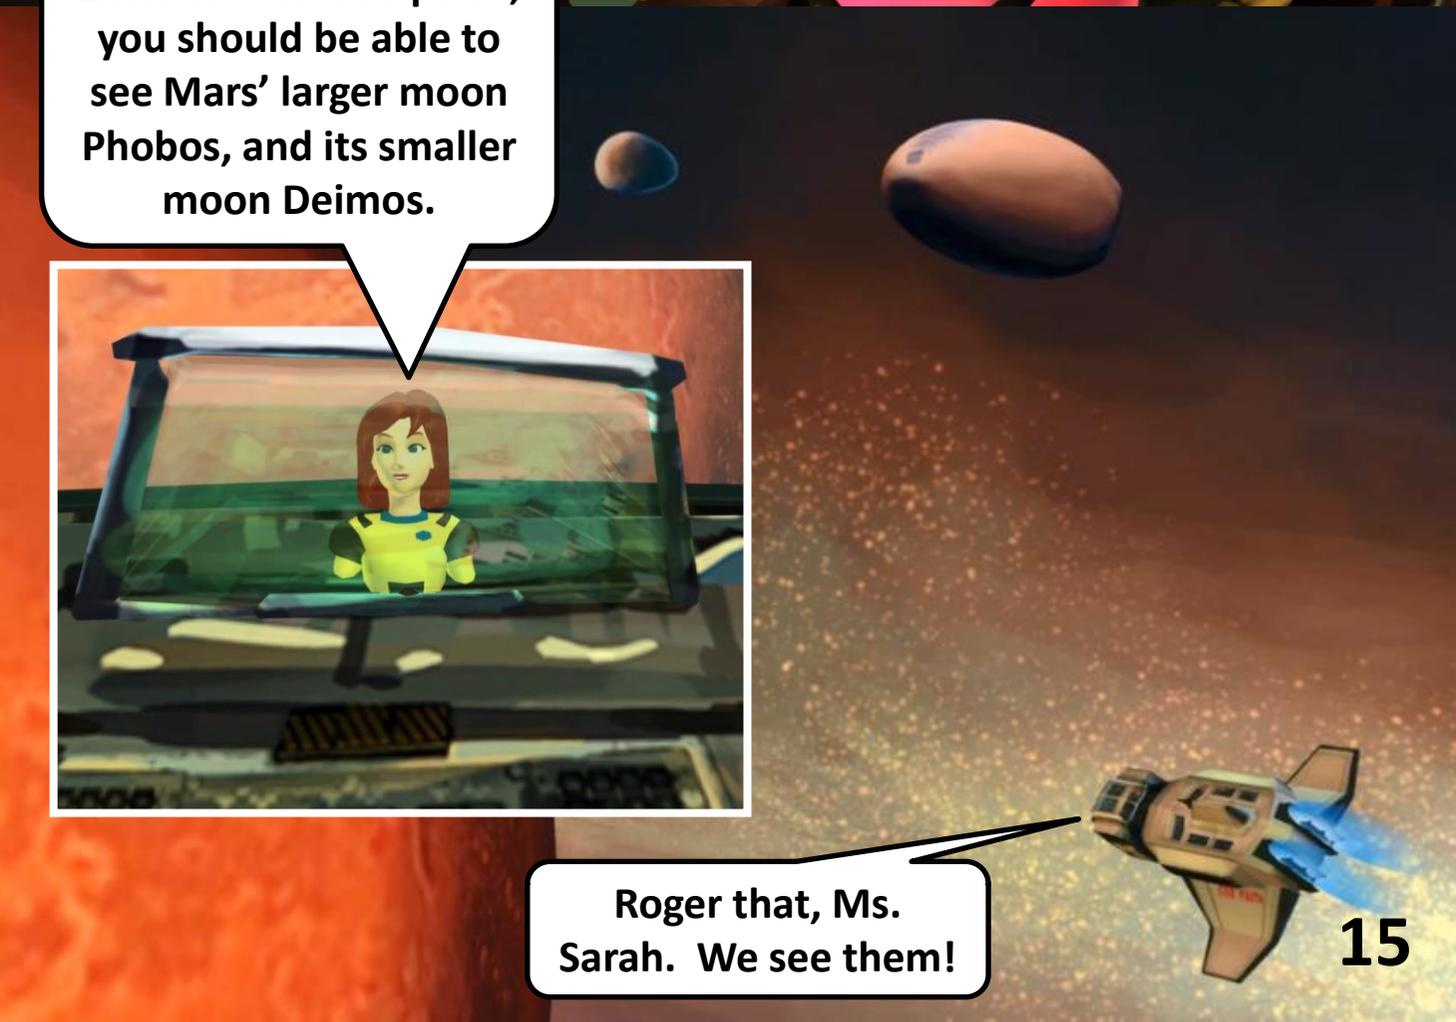

The shuttle arrives at Mars!

Ms. Sarah,
this is
Raegan. We
are now
entering
Mars' orbit!

Excellent! At this point,
you should be able to
see Mars' larger moon
Phobos, and its smaller
moon Deimos.

Roger that, Ms.
Sarah. We see them!

This is RJ. We are launching the information satellite marker now!

Mission objective #1 complete!

This is Raegan. The satellite readings are good!

We are now entering Mars' atmosphere. The light from the planet looks like butterscotch!

The butterscotch effect is the sun reflecting off dust particles in the atmosphere!

According to the computer,
Mars' red surface is caused by
rusted iron in the dirt!

Cool!

We are
coming
in for a
landing!

There is no oxygen on Mars!

Activate your energy bubbles, so you can breathe outside the shuttle!

Let's go!

I am activating
the terra-former
machine!

Mission objective #2 complete!

The blue spire is adding oxygen!

The yellow spire is adding argon!

The red spire is adding heat!

Place the marker right there!

That is perfect!

It looks great!

**Mission
objective #3
complete!**

**This marker
honors the
day eight
Christian
explorers
from Hope,
Tennessee,
became the
first
humans on
Mars!**

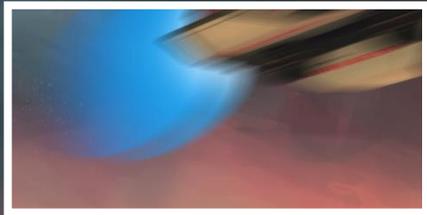

Ms. Sarah, this is RJ. We have returned to the shuttle. Our mission objectives are complete!

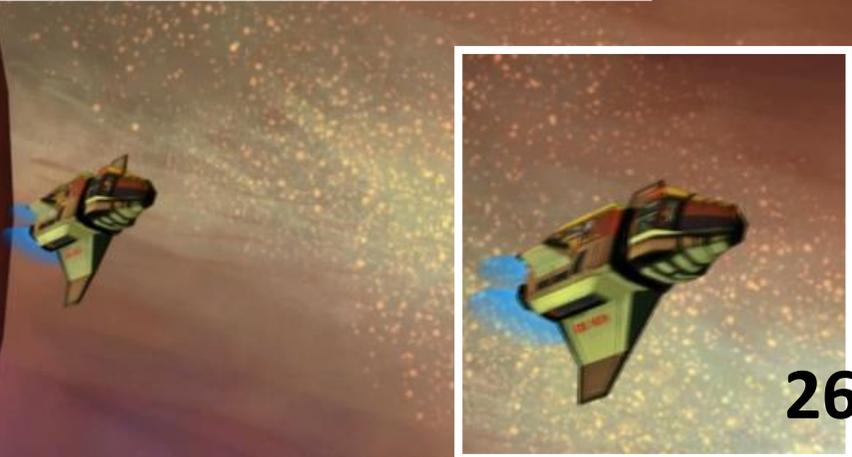

RJ, this is Captain Rich. Excellent job!

You are cleared to return to Earth!

The shuttle leaves Mars!

**Ms. Sarah,
this is
Raegan. We
are
approaching
Earth!**

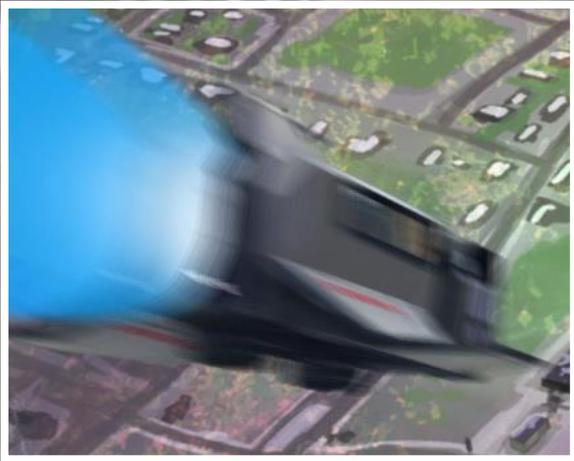

**Welcome
home team.
You are
cleared to
land!**

**Ms. Sarah, this is Raegan.
We are entering Earth's
atmosphere!**

Congratulations everyone! You are the first humans to have visited Mars!

I would like to thank our friends on the crew for their hard work!

I would also like to thank God for His protection!

In the Bible it says God created the heavens and the Earth!

That is right! So we know wherever we go in His universe, God will be looking out for us!

I can't wait for our next adventure!

Go Raegan and RJ in Space!

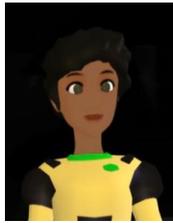

Oh, RJ!

The end!

The Characters

Raegan
Starship
Captain
'in training'

Kayla
Starship
Doctor
'in training'

Juan
Starship
Engineer
'in training'

Carlos
Starship
Captain
'in training'

RJ
Starship
Lieutenant
'in training'

Demarco
Starship
Engineer
'in training'

Clara
Starship
Engineer
'in training'

Maria
Starship Pilot
'in training'

Captain Rich
Starship Captain

Miss Sarah
Starship
Science Officer

Pastor Chris
Starship Pastor

The Equipment

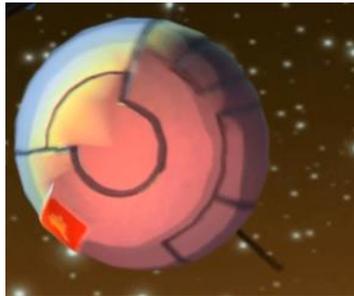

'Type 3' Long Range Shuttle
Carries the crew to Mars and back!

Information Satellite
Gathers Information about Mars!

Terra-Former Machine
Transforms Mars' atmosphere
so it can be lived on by humans!
