Raegan and RJ in Space

First To Mars

‘Raegan and RJ in Space’ is the story of the first Christians to start their own space program. In ‘First to Mars’ Raegan, RJ and their friends go on an adventure to Mars!

Story and Concept by Richard M. Collins

Written by Christopher Retts and Cliff Dew

**Illustrations by JumpingFrog Entertainment in Autodesk Maya
3D**

Paul Siegel, Cliff Dew, Samuel Rosette

Matte Painters Greg Jaimes, Mark Zepeda

**3D Modeling and Textures Bruno Zarate, Oscar Hernandez,
Alejandro Salvador, Mario Cortes, and Mark Zepeda**

ISBN 10: 1533475601

A composite image of Earth from space. The Earth is shown in the lower half, with North and South America visible. The background is a deep space scene with a bright sun in the upper left corner, creating a lens flare effect. A yellow text box is positioned in the upper right quadrant.

In the near future...

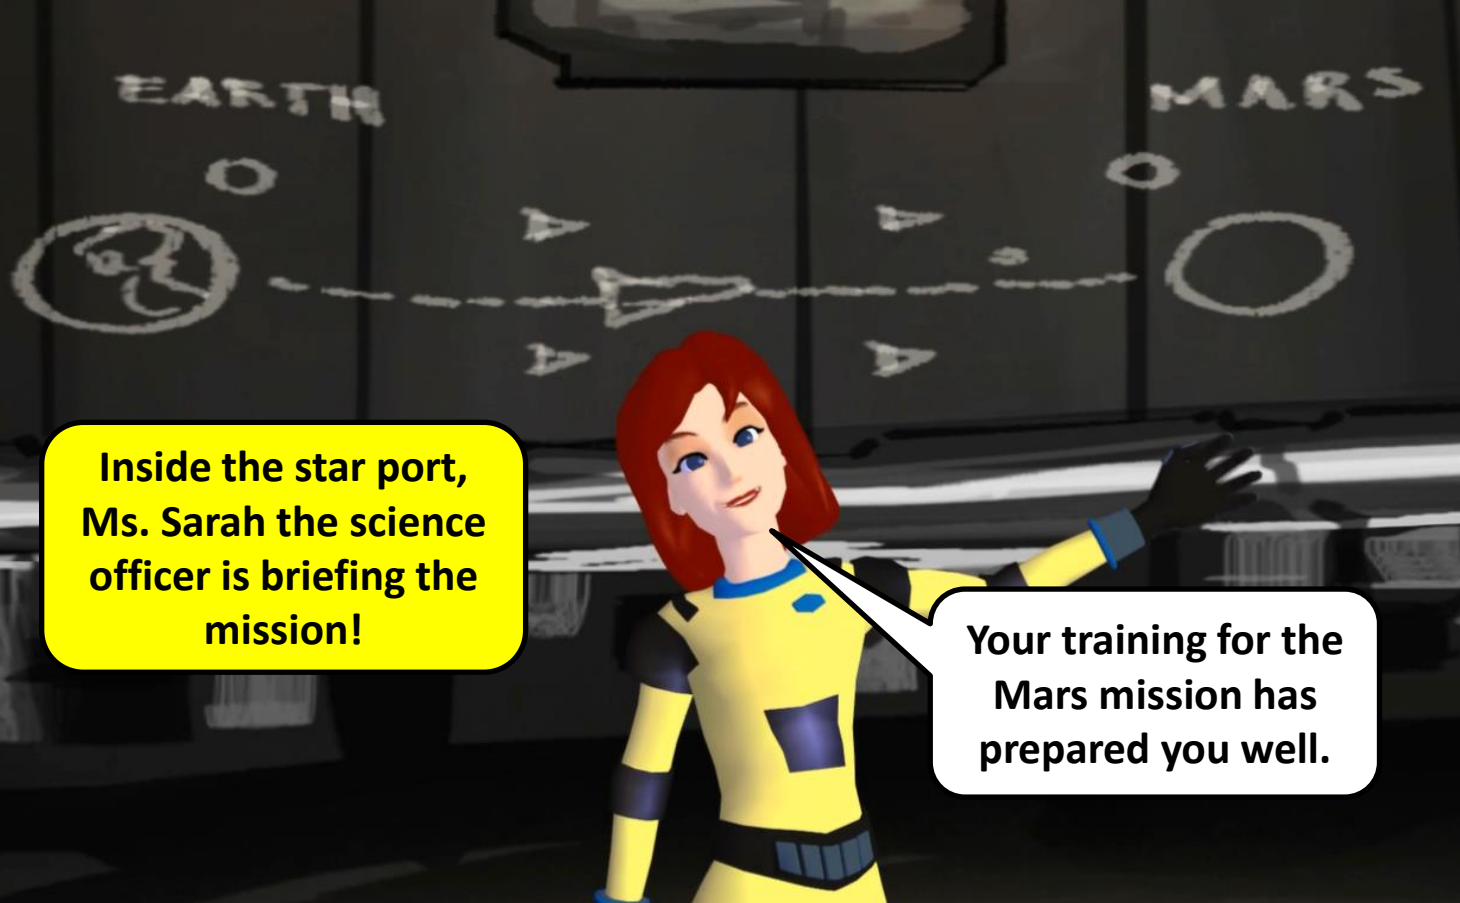

An aerial photograph of a town, likely Hope, Tennessee. The town is situated along a river, with a large industrial or commercial facility in the foreground. The facility includes several large, circular structures, possibly storage tanks or silos, and a large rectangular building. The surrounding area is lush with green trees and vegetation. A road or highway runs through the town, and several smaller buildings and parking lots are visible.

50 Christian families founded the town of Hope, Tennessee, and the Christian Space Program!

It was here that they built the first star port and star ship on Earth!

**Hope star port is the home
Christian Space Program!**

Inside the star port,
Ms. Sarah the science
officer is briefing the
mission!

Your training for the
Mars mission has
prepared you well.

Are there any
questions?

There are no questions.

**Captain Rich is pleased
with the preparations!**

**Very well.
Pastor Chris,
please pray
for the
mission.**

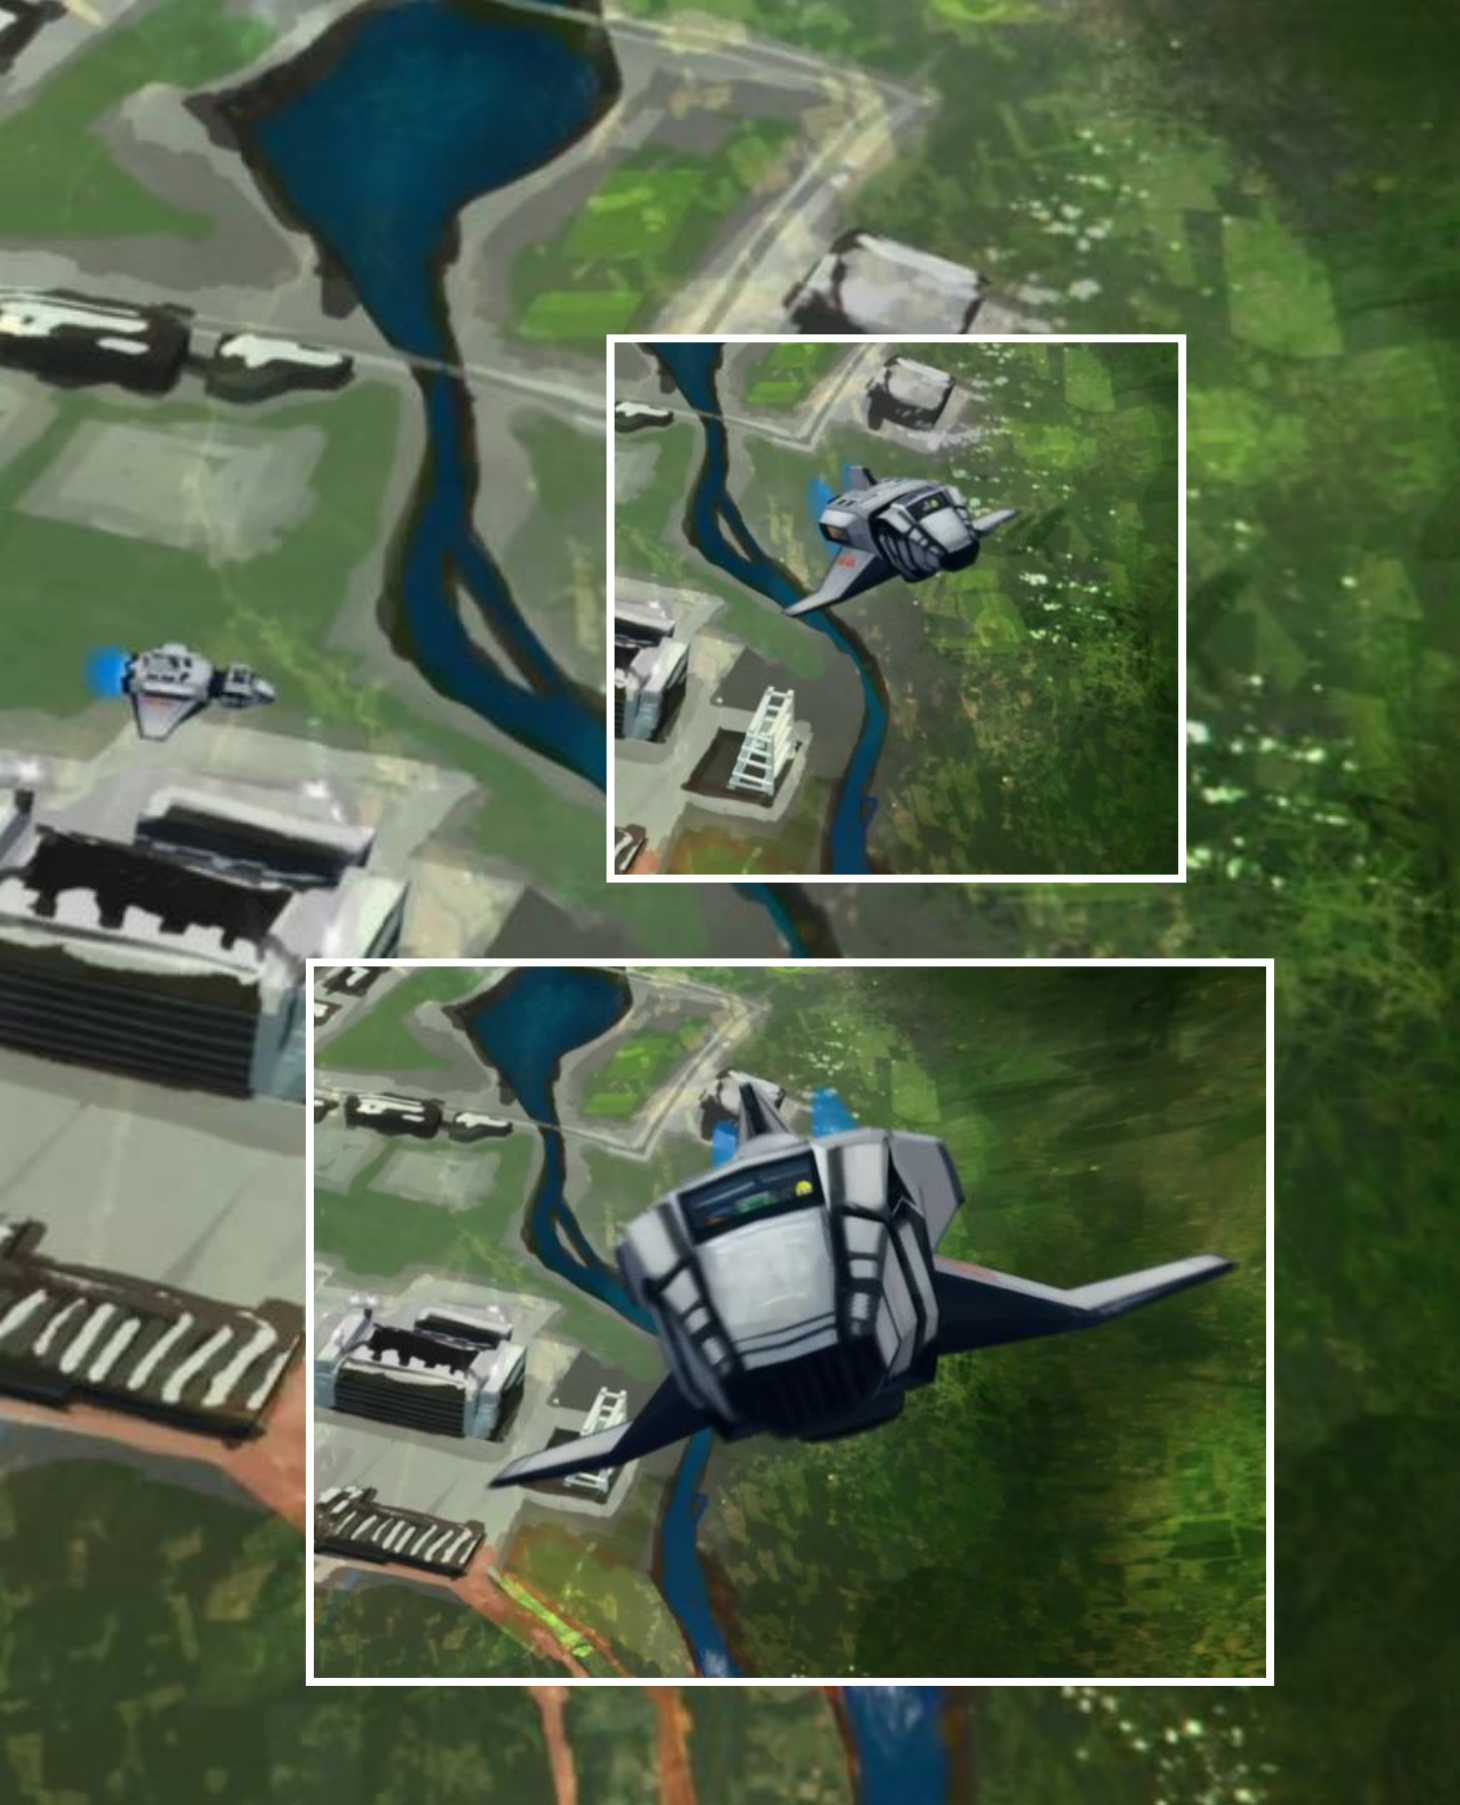

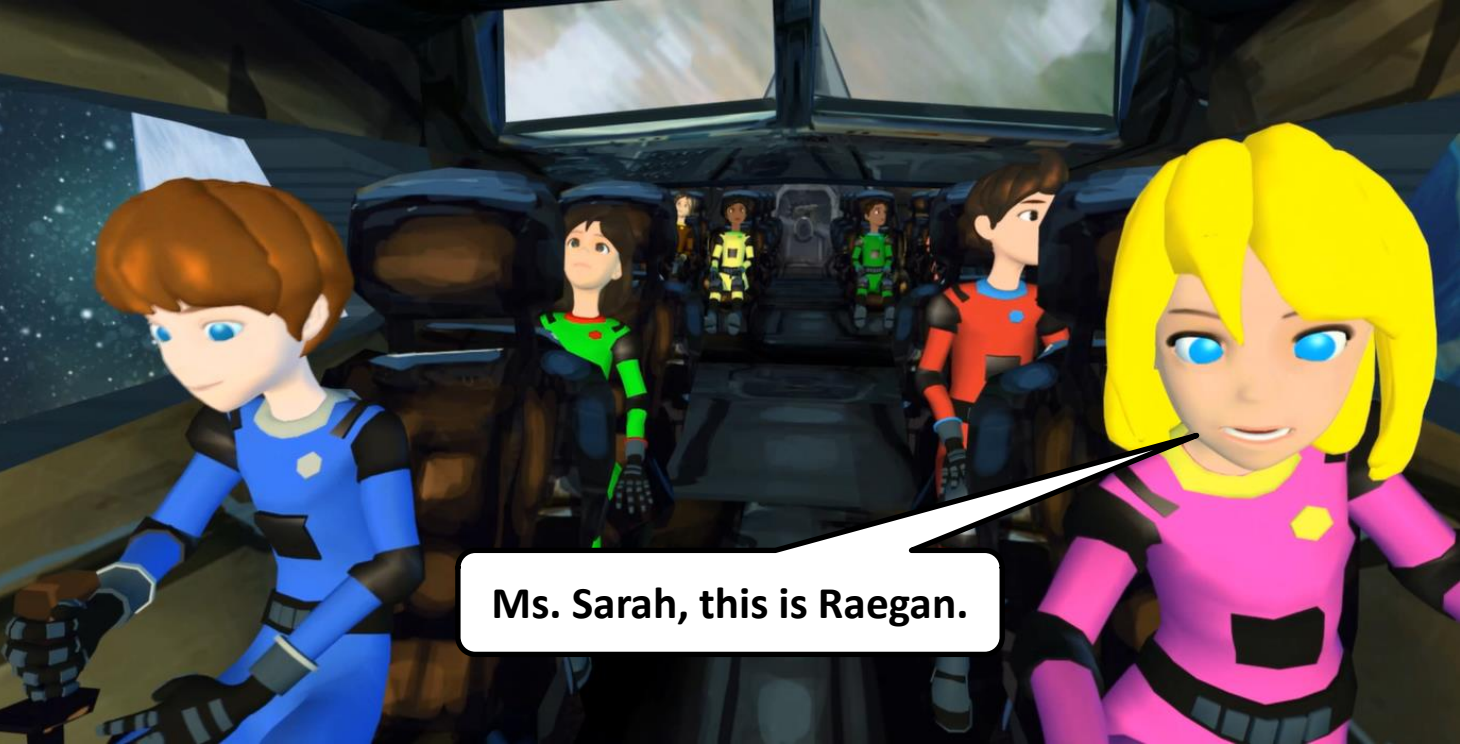

Ms. Sarah, this
is RJ. We are
taking off!

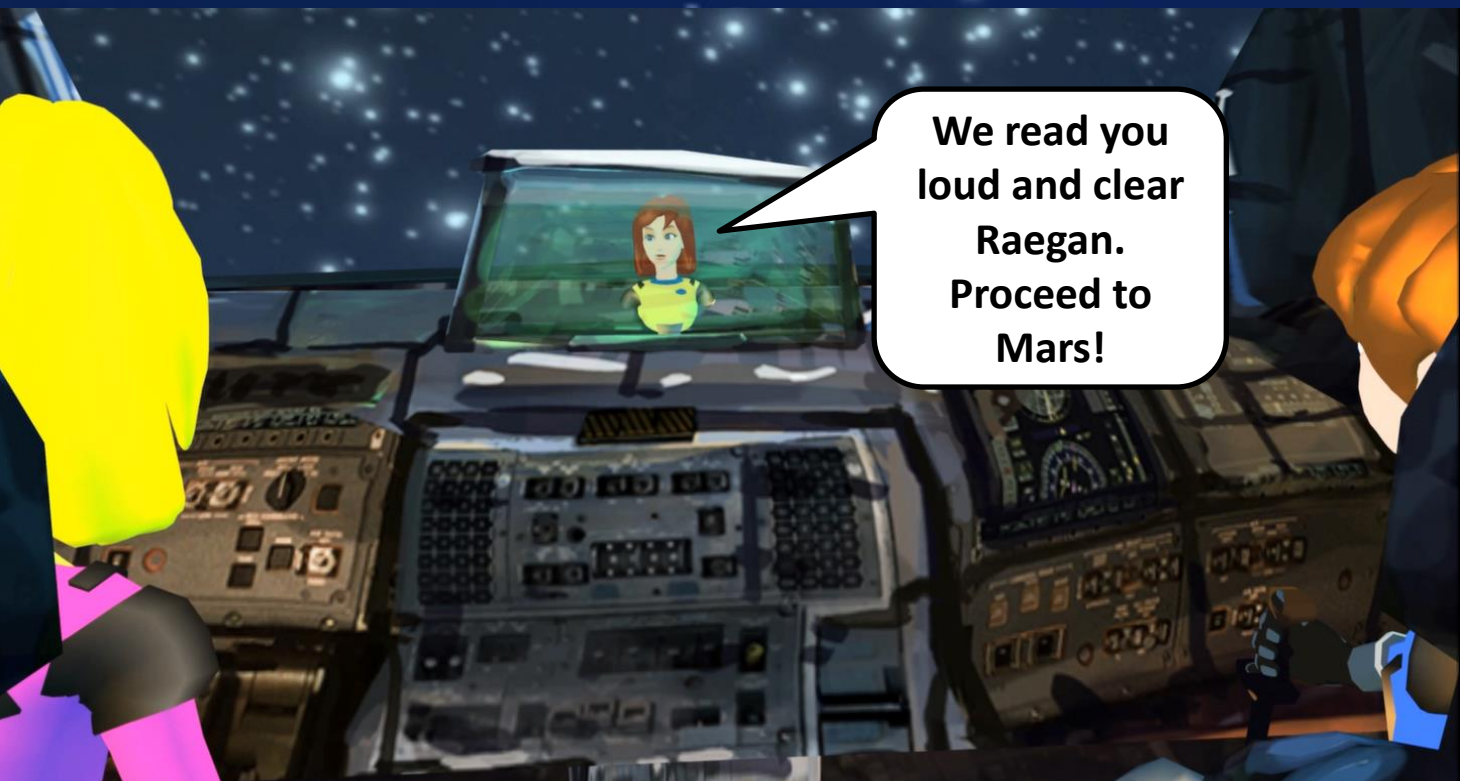

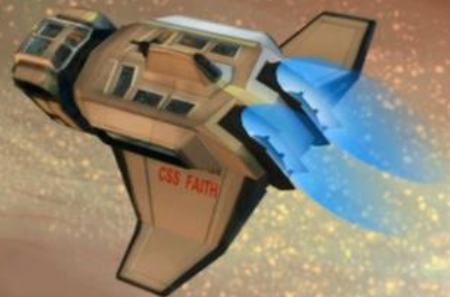

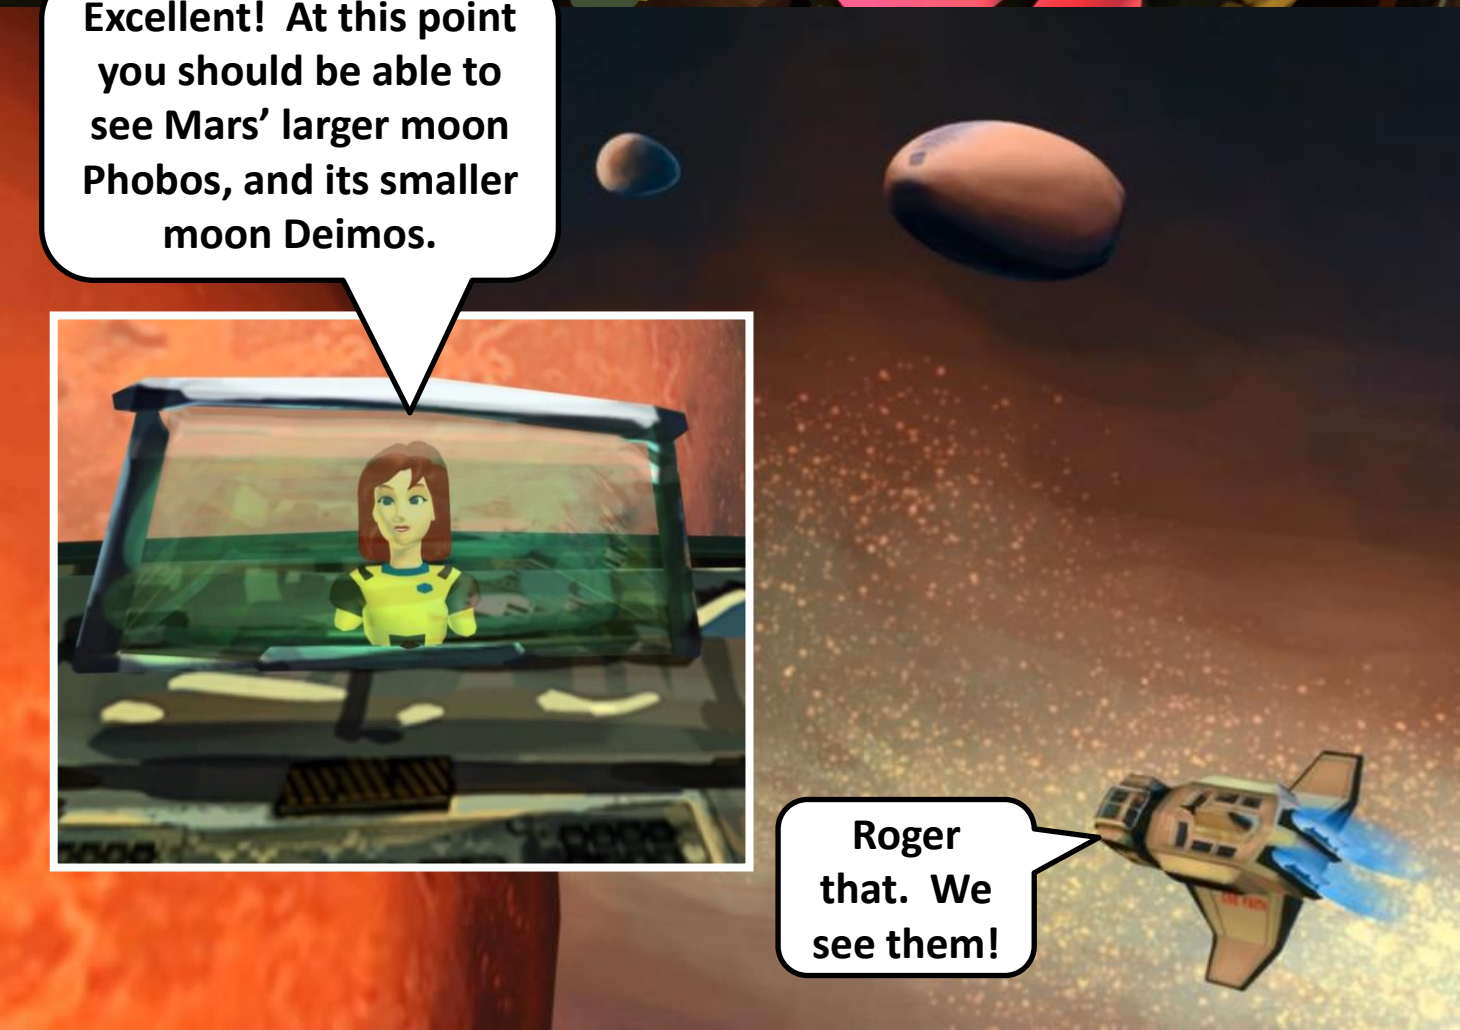

Ms. Sarah,
this is
Raegan. We
are now
entering
Mars' orbit!

Excellent! At this point
you should be able to
see Mars' larger moon
Phobos, and its smaller
moon Deimos.

Roger
that. We
see them!

**This is RJ. We are launching
the information satellite
marker now!**

**This is Raegan. Satellite
readings are good!**

We are now entering Mars' atmosphere. The light from the planet looks like butterscotch!

The butterscotch effect is the sun reflecting off dust particles in the atmosphere!

According to the computer,
Mars' red surface is caused by
rusted iron in the dirt!

Cool!

We're
coming
in for a
landing!

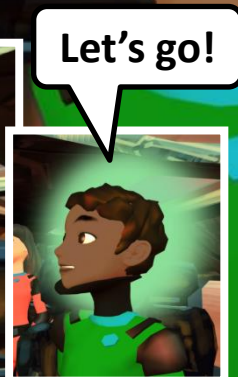

There is no
oxygen on
Mars!

Activate your energy bubbles, so we
can breathe outside the shuttle!

Let's go!

Activating the terra-
former machine!

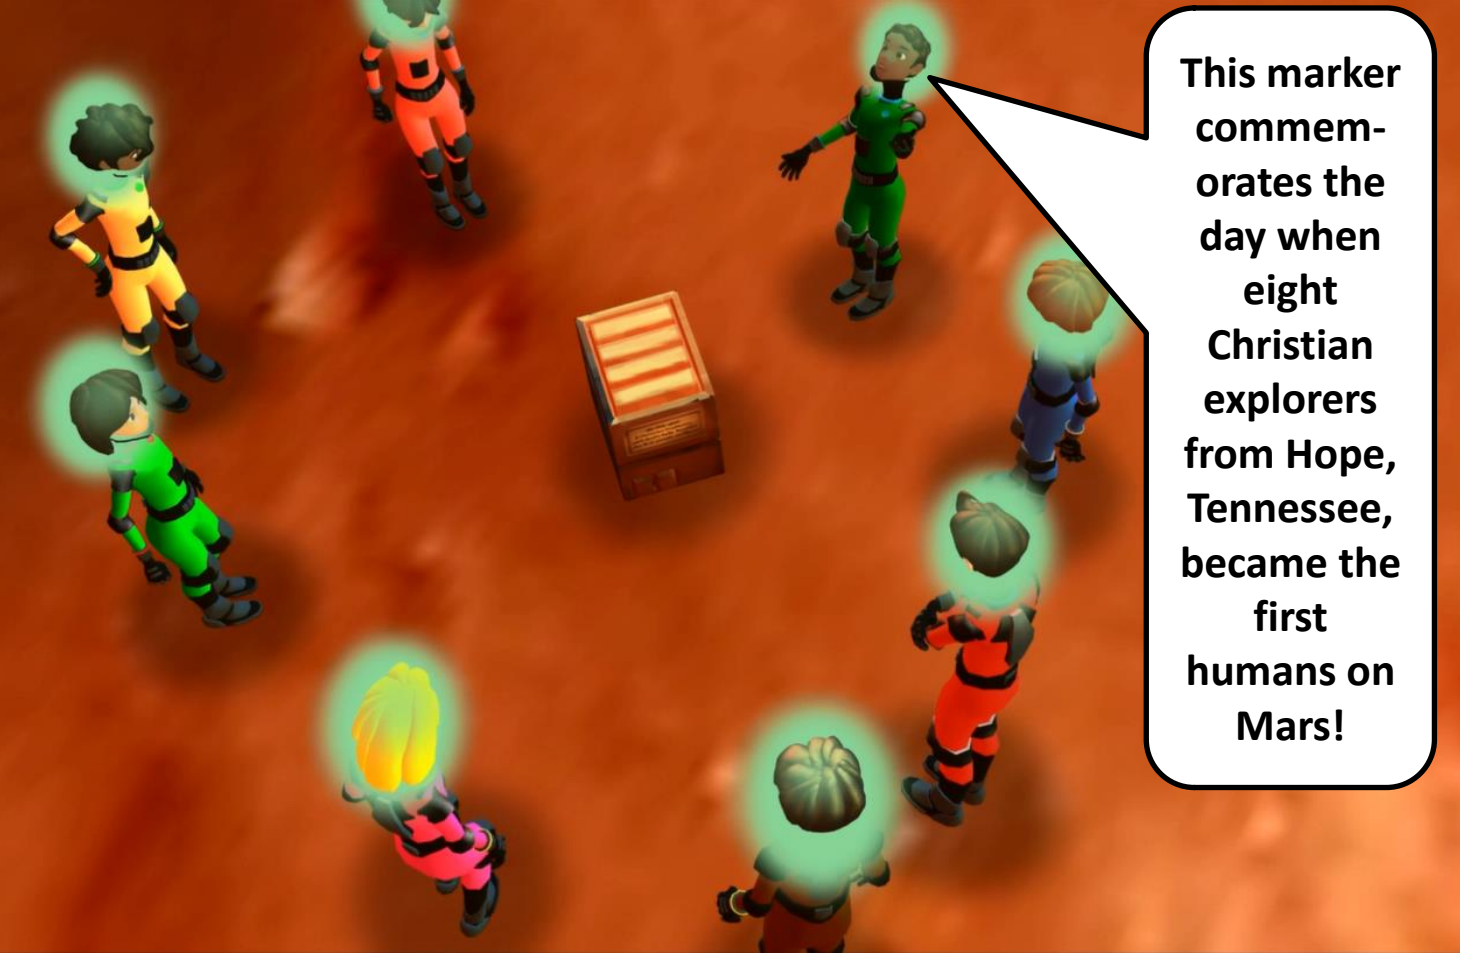

The blue spire is adding oxygen!

The yellow spire is adding argon!

The red spire is adding heat!

This marker commemorates the day when eight Christian explorers from Hope, Tennessee, became the first humans on Mars!

Ms. Sarah, this
is RJ. We are
approaching
Earth!

Ms. Sarah, this is Raegan.
We are entering Earth's
atmosphere!

Congratulations everyone! You are the first humans to have visited Mars!

I would like to thank our friends on the crew for their hard work!

I would also like to thank God for His protection!

**In the Bible it says God
created the heavens and
the Earth!**

**That is right! So we
know wherever we go
in His universe, God will
be looking out for us!**

The end!

The Characters

Raegan
Starship
Captain
'in training'

Kayla
Starship
Doctor
'in training'

Juan
Starship
Engineer
'in training'

Carlos
Starship
Captain
'in training'

RJ
Starship
Lieutenant
'in training'

Demarco
Starship
Engineer
'in training'

Clara
